

## STANDARD SPECIFICATION

Tanks	Fully baffled GRP from 2500 Lt. - 4000 Lt. Stainless Steel
Tank Agitation	Hydraulic Via Main Return, Ball Valve Returns, & Constant Recirculating System
Pump	AR 230 Lpm 6 Piston Diaphragm
Sprayline	.75" Stainless Steel with AIRTEC® Teejet® or Quad jet Fitting (constant Recirculating system on Airtec sprayers.
Filtration	1.5" 2 Stage Main Pressure Filter 2" Suction Filter
Boom Section Shutoff	Fast Acting 3 way pressure balanced ball valve
Hydraulics	In cab Electro-Hydraulic Controls
Booms	Heavy Duty Gullwing, Cropsaver, Flipover, or Pommier Aluminium for 18m to 36m
Boom Suspension	Vertical By Hydra-Cushion connected to lift rams, Horizontal off Centre pivot against springs and shock absorbers, Yaw absorption by Urethane blocks and springs.
Chassis	Rolled Hollow Section 5mm steel box
Paint Finish	Shot Blasted, Powder Coated and oven baked on at 900 degrees. Final waxoil finish, Bright metal Zinc Plated
Steering Axle	Controlled through a microprocessor and Electro-Hydraulics, with hillside mode, manual steering mode, and sensitivity adjustment Fully hydraulic or Pneumatic brakes.
Wheel Equipment	12,4R36<3000 Lt. 16.9R28>3000 Lt
Chemical Induction	Stainless Steel 35 Lt. Chemical Hopper, with Can Wash, Rinse Ring, & Powder Blaster
Tank Cleaning	External Cleanwater Tank 10% of main tanks capacity, with 2 internal multi directional high pressure tank cleaning nozzles.
Sprayer Controls	Control station with 1 Multi Port Valve controlling all suction operations, and 1 Multi Port Valve controlling all pressure operations.
Safety	Contaminated clothing locker & hand wash facility.
Lights	Full lighting to road going specification

## OPTIONAL EXTRAS

Boutmarker	Closed Transfer Systems
Cleanacres Filling Flowmeter	Closed Circuit TV System
Magic Box Sprayer Controller	Wash Down Hose
Fast Fill & Pump Out	Fast Fill Centrifugal & Agitation Pump
2nd Stainless Steel Line	Hedge Bottom Sprayer
In Cab printer	Hedge Bottom Nozzle
Direct Injection System	High Pressure Centrifugal Pump
